

LED PRODUCTS

This interior mount STAR Mini-Phantom® LED light is perfect for undercover or unmarked vehicle applications. Like the ULB42, the ULB9 has an extremely thin profile, less than 1" high, that easily mounts to your dash, deck, mirror, or windows with suction cups. At only 9" long, the 57 long-life, alternate flashing LEDs give the STAR Mini-Phantom® the power and flexibility you need with 3 customer selectable flash patterns with the push of a button. The ULB9 is also available with a 15' hardwire lead version that will synchronize with other ULB9s (Model# ULB9-1). The ULB9 ships complete with cigarette plug with lighted On/Off switch, mounting brackets, suction cups, hardware, and instructions.

SPECIFICATIONS

DLX3

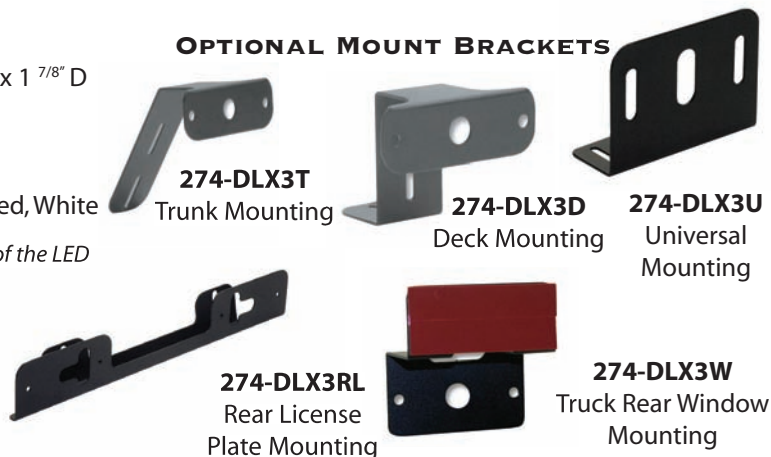

The STARBURST™ DLX3 series LED auxiliary light is a small and powerful weather resistant package perfect for mounting on motorcycle saddlebags, in trunks, on vehicle fenders, mirrors, or any place a small, intense LED light is needed. Using STAR generation-3 LEDs, it has current limit protection over the entire operating voltage and reverse polarity protection that gives you worry free operation. The STARBURST™ DLX3 is offered in a variety of colours and they can be synchronized with other STARBURST™ DLX3s. High/Low power select and 11 different customer selectable flash patterns are available, including a Steady On, for many customized possibilities. Ships complete with five 3' attached wires, gasket and instructions.
